

Carinthia – a great setting for perfect fun on the slopes

Unlimited skiing enjoyment, glaciers, hospitality. This basically rounds up what awaits winter holidaymakers in the Carinthian mountains. Summits glittering in icy blue make up the wonderful setting for perfect winter fun with deep snow, thermal spas and great ski slopes. And pleasure takes centre stage. In Carinthia you can feel the snow – however, wherever and whenever you want.

In Carinthia, winter guests have a vast choice among the most beautiful alpine regions: between Heiligenblut and Nassfeld, between Bad Kleinkirchheim and the Möll Valley Glacier. And all these with a sunshine and snow guarantee and a total of 1,031 kilometres of alpine ski slopes. The Top Ski Pass Carinthia & East Tyrol is valid for 34 ski resorts.

But winter sport does not always mean racing down ski slopes. Cross-country skiers will find marvellous cross-country trails while tobogganists will discover well developed toboggan runs; some of which are even floodlit.

Don't search for long – find. This is the motto in the Carinthian mountains – and it is true for each topic, be it alpine skiing, thermal wellness or family offers.
