

Snowsport GB Press Release – February 5th, 2010

Due to the significant financial problems with Snowsport GB, the Directors have taken the difficult decision to place the organisation into administration with immediate effect.

Administrators from BDO have been appointed and will commence proceedings from today.

This will not have any impact on the 14 British ski and snowboard athletes that will be attending the Winter Olympic Games in Vancouver commencing on February 12. The British Olympic Association will be handling all arrangements for these athletes and we wish them every success at the Games.

For further information on the athletes please call the BOA Communications Team:
